MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

Overview

The Group is one of the leading overseas studies consultancy services providers in Hong Kong. Our network consists of overseas education providers from all over the world. Nevertheless, we mainly serve local students who are mainly seeking secondary education and higher education studies in the United Kingdom (“**UK**”), Australia, Canada and the United States of America (the “**USA**”). During the six months ended 30 September 2020, the Group’s principal business remained the provision of overseas studies consultancy services in Hong Kong. Commission income generated from the placements of students from the UK and Australia remained as the main driver of the Group’s revenue.

PROSPECTS AND STRATEGIES

The operating environment in Hong Kong has remained difficult with the subsistence of the novel coronavirus (the “**COVID-19**”) during the six months ended 30 September 2020. The Group has been facing with intensive competition under the difficult operating environment. Coupled with various quarantine measures, such as, the close of borders, were adopted by the countries where the overseas universities/colleges which formed the main streams of the Group’s revenue are located due to the global spread of COVID-19, the number of placement of students for the six months ended 30 September 2020 decreased as compared with the previous year.

In order to improve the financial performance of the Group, the Group will continue to explore new streams for intake of students by continuing to promote the Group’s brand by online advertisement and by locating suitable working partners. As disclosed in the Annual Report of the Company for the year ended 31 March 2020 and published on 29 June 2020 as well as the First Quarterly Report 2020 of the Company and published on 14 August 2020, the Group established a new indirect wholly-foreign owned subsidiary in Guangzhou, the PRC during the six months ended 30 September 2020 with an aim to develop the Group’s business on provision of education consultancy services in Guangzhou of the PRC. Although the wholly-foreign owned subsidiary in Guangzhou has not formally commenced its operation as at the date of this report, the Directors are locating suitable business co-operation opportunities with the counterparty(ies) in the PRC. The Directors will keep on trying their best endeavours to maintain the Group’s competitiveness and will strive to improve the Group’s services for enhancing the Group’s growth in the present difficult business environment. On the above basis, the Directors believe the performance of the Group can be rebounded in the foreseeable future after the spread of COVID-19 in the world is under control.

MANAGEMENT DISCUSSION AND ANALYSIS

Principal Risks and Uncertainties

The economic and financial markets have been significantly impacted as a result of the COVID-19 outbreak from about late January 2020. Impacts on the financial performance of the Group for the six months ended 30 September 2020 became more obvious as at the date of this report. The subsistence of the COVID-19 has influence on the financial performance of the Group for the six months ended 30 September 2020 because face to face consultations closely with parents and students for intakes became less, large marketing exhibitions to promote the Group's businesses were suspended/withheld under the Hong Kong Government's new requirements to reduce gatherings as well as classes suspensions were implemented by overseas schools and universities. The management expects that the consultation and intake of students will inevitably continue to slow down and growth of the demand in overseas education becomes hard which may directly affect the revenue generated from the overseas studies consultancy services of the Group in this year. The extent of impact of the COVID-19 on the Group will depend on the new development concerning the global severity of and actions taken to contain the COVID-19 that are still highly uncertain as at the date of this report. The Group will continue to pay close attention to the development of the COVID-19 and evaluate its impact on the consolidated financial statements and operation results from time to time.
