MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

Overview

The Group is one of the leading overseas studies consultancy services providers in Hong Kong. Our network consists of overseas education providers from all over the world. Nevertheless, we mainly serve local students who are mainly seeking secondary education and higher education studies in the United Kingdom (the **"UK"**), Australia, Canada and the United States of America (the **"USA"**).

PROSPECTS AND STRATEGIES

As the Group's continuing operation mainly depends on the number of successful placement of students to overseas universities, the subsidence of COVID-19 continued to affect the principal activity of the Group. Nevertheless, certain overseas countries have released their restriction policies on international arrivals which enabled applications for students' study visas to be processed more efficiently. Besides, our centre for provision of education consultancy services in the Guangzhou province, the People's Republic of China (the **"PRC"**) has commenced its business, which is expected to give us a new stream of generating income to the Group as people from the PRC are willing to financially support their child/children to pursue their tertiary education abroad. Simultaneously, the Group will continue to locate suitable working partners and will continue to allocate sufficient resources in marketing campaigns in Hong Kong to strengthen its brand and increase its recognition. The Group has developed digital marketing channel through well-known online platforms in recent years so as to enable the Group to promote the Group's brand and services in a much more cost-effective manner. The Directors will keep on trying their best endeavours to maintain the Group's competitiveness and will strive to improve the Group's services for enhancing the Group's growth in the present difficult business environment. On the above basis, the Directors believe the performance of the Group can be improved in the foreseeable future.

MANAGEMENT DISCUSSION AND ANALYSIS

Principal Risks and Uncertainties

The economic and financial markets have been significantly impacted as a result of the subsistence of the COVID-19. The subsistence of the COVID-19 had some impacts on the financial performance of the Group as, the financial and business environments in Hong Kong have not been fully recovered from the adverse impact of the 5th wave of COVID-19, and on the other hand, the representatives from overseas universities and high schools still hesitated to travel to Hong Kong for intaking and interviewing students. The management expects that the consultation and intake of students will still depend on policies of different governments to resume normal livings, which may directly affect the revenue generated from the overseas studies consultancy services of the Group. The extent of impact of the COVID-19 on the Group will depend on the different government policies to contain the COVID-19 and their quarantine system for entry. The Group will continue to pay close attention to the government policies on the COVID-19 and evaluate its impact on the consolidated financial statements and operation results.

FINANCIAL REVIEW

Revenue

Revenue of the Group for the three months ended 30 June 2022 increased to approximately HK\$2.2 million, compared to approximately HK\$2.0 million for the three months ended 30 June 2021. The increase was mainly attributable to the increase in revenue from the commission income generated from the placements of students in the UK as a result of the favourable immigration policy to BNO holders.

UK

Commission income generated from the placements of students in the UK remained the main source of the Group's revenue which accounted for approximately 76.2% for the three months ended 30 June 2022 (2021: approximately 63.7%). Commission income generated from the placements of students in the UK was amounted to approximately HK\$1.7 million (2021: approximately HK\$1.3 million) or increased by approximately 29.1%. The increase in commission from the placements of students in the UK was mainly contributed by the favourable immigration policy to BNO holders which led to an increase in number of student immigrants to the UK.

MANAGEMENT DISCUSSION AND ANALYSIS

Australia

Commission income generated from the placements of students in Australia was amounted to approximately HK\$276,000 (2021: approximately HK\$532,000), which represented approximately 12.6% of the Group's total revenue for the three months ended 30 June 2022 (2021: approximately 26.2%). The decrease in the commission income generated from the placements of students in Australia was mainly contributed by the decrease in number of students choosing Australia as their place of study during the three months ended 30 June 2022.

Canada and the USA

Commission income generated from the placements of students in Canada and the USA in aggregate decreased by approximately 58.2% which amounted to approximately HK\$76,000 (2021: approximately HK\$182,000) and represented approximately 3.5% (2021: approximately 8.9%) of total revenue for the three months ended 30 June 2022. The decrease in amount was mainly attributable to the decrease in student placements in the USA for the three months ended 30 June 2022.

Other income

The Group's other income decreased from approximately HK\$804,000 for the three months ended 30 June 2021 to approximately HK\$736,000 for the three months ended 30 June 2022, representing a decrease of approximately HK\$68,000. The decrease was mainly due to no fair value gain of financial assets at fair value through profit and loss was recorded for the three months ended 30 June 2022 but a gain of approximately HK\$151,000 was recorded for the three months ended 30 June 2021.

MANAGEMENT DISCUSSION AND ANALYSIS

Marketing costs

The Group's marketing costs increased from approximately HK\$556,000 for the three months ended 30 June 2021 to approximately HK\$618,000 for the three months ended 30 June 2022. The increase was mainly attributable to the development of digital marketing channel and an increase of marketing activities to boost revenue during the three months ended 30 June 2022.

Employee benefits expenses

Staff cost of the Group increased to approximately HK\$2.9 million for the three months ended 30 June 2022 (2021: approximately HK\$2.5 million) because of increase in salary package for employees in Hong Kong and for retaining staff members for operation in the PRC during the three months ended 30 June 2022.

Other expenses

Other expenses of the Group increased from approximately HK\$2.3 million for the three months ended 30 June 2021 to approximately HK\$5.9 million for the three months ended 30 June 2022. The increase in amount was mainly contributed by the recognition of fair value loss of financial assets at fair value through profit and loss of approximately HK\$1.8 million and net foreign exchange loss of approximately HK\$2.2 million the three months ended 30 June 2022, both of which reported gain for the three months ended 30 June 2021.

Income tax expense

Income tax expense of approximately HK\$32,000 is recorded for the three months ended 30 June 2022, representing an increase of approximately HK\$3,000 during the three months ended 30 June 2022.

Loss for the three months ended 30 June 2022

Net loss for the Group was amounted to approximately HK\$6.5 million for the three months ended 30 June 2022 (2021: net loss of approximately HK\$2.6 million). The net loss was mainly attributable to the combined effect of decrease in other income and increase in employee benefits expenses and other expenses during the three months ended 30 June 2022 as elaborated above.
