THIRD QUARTERLY
REPORT

CHARACTERISTICS OF THE GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

*This report, for which the directors (the “**Directors**”) of Dadi Education Holdings Limited (the “**Company**”), together with its subsidiaries, (the “**Group**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.*

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

Overview

The Group is one of the leading overseas studies consultancy services providers in Hong Kong. Our network consists of overseas education providers from all over the world. Nevertheless, we mainly serve local students who are mainly seeking secondary education and higher education studies in the United Kingdom (the "UK"), Australia, Canada and the United States of America (the "USA"). During the nine months ended 31 December 2022, the Group's principal business remained the provision of overseas studies consultancy services in Hong Kong. Commission income generated from the placements of students from the UK and Australia remained as the main driver of the Group's revenue.

PROSPECTS AND STRATEGIES

During the nine months ended 31 December 2022, Hong Kong has experienced the 5th wave of COVID-19, which the Hong Kong government has implemented quarantine measures with various methods to keep social distance. Similar to overall enterprises in Hong Kong, the Group's business was also affected in the 5th wave of COVID-19. It is fortunate that the 5th wave of COVID-19 has been almost passed towards the end of the nine months ended 31 December 2022, and as at the date of this report, visitors from overseas or Taiwan can arrive Hong Kong without quarantine, isolation and vaccination requirements; normal travel between Hong Kong and the PRC has also been resumed without pre-departure testing requirements for travelers who do not stay in any overseas places or Taiwan within seven days before they enter the PRC; and no quarantine is required for COVID-19 patients in Hong Kong starting from 30 January 2023. With the launch of the promotional campaign organised by the Hong Kong government, it is expected that international travelers are more willing to travel to Hong Kong for visits, exhibitions and activities.

As for the Group, despite the Group has been developing digital marketing channels during the period of COVID-19, which the Group will continue to develop, it is expected that more frequent physical exchanges can be resumed with universities and high schools so that students and parents may have opportunities to have direct face to face contacts with the representatives from different universities and high schools. At the same time, the Group has kept and will keep on locating suitable working partners to work with in order the expand the streams for students' intakes and the Group's market share.

MANAGEMENT DISCUSSION AND ANALYSIS

However, with the impact from some extrinsic factors, such as, the increase in migration rate, the decrease in birth rate and the increase in interest rate, the market in Hong Kong may become limited and thus the Group needs to look for business opportunities from different markets for the Group's future development. The Group considers it an opportunity to expand its services to other potential markets in the People's Republic of China (the "PRC") and in the overseas. Apart from the centre established by the Group in the PRC for provision of education consultancy services during the nine months ended 31 December 2021, the Group newly set up a company in Malaysia during the nine months ended 31 December 2022 targeting for providing mainly education consultation service. Notwithstanding the Group's attempts in developing different markets, the Group's business in Hong Kong will remain its primary market.

The Directors will continue to maintain the Group's competitiveness with good quality of services to students and parents. Although normal physical contacts resume, it is expected that time will be required to resume the business environment and scales to the period before the COVID-19, in particular, factors such as inflation, high interest rates, etc. affect the economy. The Group will continue to develop its digital marketing channel which will play a part in the Group's future business development. The Directors are still confident that the performance of the Group can be turned to an improvement trend when the extrinsic factors become stable.

Principal Risks and Uncertainties

The economic and financial markets have been significantly impacted as a result of the COVID-19 as well as the global economic environment during the nine months ended 31 December 2022. The global economic environment has been impacted by the inflation and increase in interest rates, the financial and business environments in Hong Kong will inevitably be affected. The financial and business environments in Hong Kong have not been fully recovered from the adverse impact of the 5th wave of the COVID-19. The management expects that the consultation and intake of students will still depend on policies of different governments to attract students and talents as well as measures to control increase in living expenses due to inflation, which may directly affect the revenue generated from the overseas studies consultancy services of the Group. The Group will continue to pay close attention to the government policies and the risks of increase in costs arising from fluctuation of currencies with a view to minimise their impacts on the consolidated financial statements and operation results.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue

Revenue of the Group for the nine months ended 31 December 2022 was approximately HK\$9.4 million, representing a decrease of approximately 7.9% from approximately HK\$10.3 million for the nine months ended 31 December 2021. All revenue was derived from the overseas study consultancy services. The decrease in revenue was mainly attributable to the depreciation in exchange rates between foreign currencies and Hong Kong dollars (“**HK\$**”) for the nine months ended 31 December 2022 as our revenue was primary denominated in foreign currencies based on locality of the Group’s customers.

UK

Commission income generated from the placements of students in the UK maintained to be the main source of the Group’s revenue which accounted for approximately 61.7% for the nine months ended 31 December 2022 (2021: approximately 60.4%). Commission income generated from the placements of students in the UK decreased to approximately HK\$5.8 million for the nine months ended 31 December 2022 (2021: approximately HK\$6.2 million). The slight decrease was mainly because of the depreciation of exchange rate of Great British Pounds (“**GBP**”) against HK\$ during the nine months ended 31 December 2022.

Australia

Commission income generated from the placements of students in Australia was declined by approximately HK\$0.3 million to approximately HK\$1.7 million (2021: approximately HK\$2.0 million), which represented approximately 17.8% of the Group’s total revenue for the nine months ended 31 December 2022 (2021: approximately 16.8%) The decrease in the commission income generated from the placements of students in Australia was mainly contributed to the depreciation of exchange rate of Australian dollars (“**AUD**”) against HK\$ during the nine months ended 31 December 2022.

Canada and the USA

Commission income generated from the placements of students in Canada and the USA in aggregate decreased by approximately 7.5% which amounted to approximately HK\$1.7 million (2021: approximately HK\$1.8 million) and represented approximately 17.8% (2021: approximately 17.7%) of total revenue for the nine months ended 31 December 2022.

Other income

The Group’s other income increased from approximately HK\$2.2 million for the nine months ended 31 December 2021 to approximately HK\$3.3 million for the nine months ended 31 December 2022, representing an increase of approximately HK\$1.1 million or approximately 51.7%. The increase was mainly due to (a) the receipt of approximately HK\$0.6 million in respect of COVID-19 related subsidy granted by the government of Hong Kong for the nine months ended 31 December 2022 whereas there was no such subsidy granted for nine months ended 31 December 2021; and (b) an increase in bank interest income of approximately HK\$0.4 million as a result of an increase in interest rate.

MANAGEMENT DISCUSSION AND ANALYSIS

Marketing costs

The Group's marketing costs increased from approximately HK\$2.2 million for the nine months ended 31 December 2021 to approximately HK\$2.3 million for the nine months ended 31 December 2022. The increase was mainly attributable to the development of digital marketing channel by the Group during the nine months ended 31 December 2022.

Employee benefits expenses

Staff cost of the Group was increased by approximately HK\$1.7 million from approximately HK\$7.8 million for the nine months ended 31 December 2021 to approximately HK\$9.5 million for the nine months ended 31 December 2022. The increase in staff cost was mainly due to the salaries paid to staff members for the operation in the PRC and an increase in salary package for employees in Hong Kong for the nine months ended 31 December 2022.

Other expenses

Other expenses of the Group had been increased from approximately HK\$7.5 million for the nine months ended 31 December 2021 to approximately HK\$8.4 million for the nine months ended 31 December 2022. The increase in amount was mainly because of a net foreign exchange loss of approximately HK\$3.2 million was recorded for the nine months ended 31 December 2022 as compared with a loss of approximately HK\$0.9 million for the nine months ended 31 December 2021.

Income tax expense

Income tax expense increased from approximately HK\$0.1 million for the nine months ended 31 December 2021 to approximately HK\$0.2 million for the nine months ended 31 December 2022 due to the increase in expected assessable profit of one of the subsidiaries of the Group for the nine months ended 31 December 2022.

Net loss for the nine months ended 31 December 2022

Net loss for the Group was amounted to approximately HK\$9.8 million for the nine months ended 31 December 2022 (2021: net loss of approximately HK\$5.3 million). The net loss was mainly attributable to (i) an increase in net foreign exchange loss from approximately HK\$0.9 million for the nine months ended 31 December 2021 to approximately HK\$3.2 million for the nine months ended 31 December 2022 as a result of depreciation in exchange rates between foreign currencies and HK\$ as discussed above; and (ii) an increase fair value loss of financial assets at fair value through profit and loss ("FVTPL") from approximately HK\$0.1 million for the nine months ended 31 December 2021 to approximately HK\$2.2 million for the nine months ended 31 December 2022.
